ABOUT US.

Introduction:

Core Civil Mining Services Pty Ltd is a trusted civil contracting company delivering specialised solutions across the civil construction and mining sectors.

We deliver high-quality projects across bulk earthworks, roadworks, drainage infrastructure, road sealing, and concrete works.

Our capability is driven by our people. Our team comprises highly skilled professionals, including **Schedule 26-certified supervisors** and **experienced plant operators**, ensuring all works are delivered with precision, efficiency, and strict adherence to safety standards.

Safety and sustainability are embedded in our operations. We are committed to best-practice safety systems while supporting Australia's transition to sustainable and environmentally responsible construction methods.

With a strong focus on quality, integrity, and innovation, we consistently deliver outcomes that exceed client expectations.

OUR SERVICES

ROAD WORKS

End-to-end road construction services, from sub-base preparation and grading through to pavement construction and sealing.

BULK EARTHWORKS

Cut and fill, land shaping, and site clearing delivered with mining-grade precision to optimise site readiness and reduce rework.

MAINTENANCE OPERATIONS

Proactive maintenance solutions that enhance asset performance and minimise operational downtime.

DRAINAGE WORKS

Specialised drainage and culvert installation designed to improve water management and extend asset life.

Regional Expertise:

Backed by extensive industry experience, we consistently deliver accurate results across demanding site conditions from early-stage clearing to final grading. Our proven expertise allows us to effectively manage the challenges of the Pilbara while upholding the highest standards of project execution.

OUR SERVICES

PROJECT MANAGEMENT SERVICES

Comprehensive project management from planning and risk assessment through to execution and delivery.

ISO DOCUMENTATION AND COMPLIANCE

Practical, site-ready ISO systems designed for compliance, efficiency, and audit readiness.

TENDER PREPARATION AND SUBMISSION

Strategic, high-quality submissions that clearly define methodology, risk mitigation, and value delivery.

CONCRETE WORKS

Specialised concrete construction including equipment foundations, retaining walls, pump bases, and structural slabs.

Regional Expertise:

With strong industry experience, we ensure precise results across complex site conditions, from initial land clearing through to final grading. We have a proven track record of working in the Pilbara's demanding environments while consistently maintaining the highest standards on every project.

SAFETY, QUALITY, & ENVIRONMENT

Safety-First Innovation

We deliver industry-leading safety outcomes through advanced systems and technology.

Smart & Safe Operations

Our smart and safe operational approach minimises operator risk while improving on-site safety standards.

Committed to ISO Standards

We adhere to ISO 9001, ISO 14001, and ISO 45001 standards, reflecting our commitment to quality, environmental management, and occupational health & safety.

Training & Compliance

Our workforce is supported through structured training, VOCs, and continuous safety engagement.

Consistent Standards

Ongoing audits, competency checks, and leadership oversight ensure high performance across all operations.

KEY PROJECTS

Local Council Roadworks

Expertly restored road surfaces with minimal disruption to local traffic.

Description:

Road profiling, drainage works, culvert installation, and beach maintenance

Metro Housing Development Site Preparation

Scope: Clearing, grubbing and ground leveling with comprehensive drainage systems

Location: Perth Metropolitan Area

Haul Road Works

Scope of Works:

Construction of haul roads and supporting infrastructure

Services:

Wet hire, operators, supervision

CORE
CIVIL MINING

KEY PROJECTS

Client: Fortescue

Location: Cloudbreak Mine Site

Delivery Role: Principal contractor

Project: Cloudbreak Walking Track Works

Scope of Works:

Provision of comprehensive civil support services for the construction of walking track

Wet hire supply of equipment:

Tipper Trucks

Watercarts

Graders

Rollers

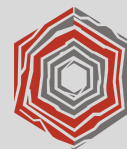

Surveying services to support accurate set-out and project delivery

Supply and installation of safety products and site barricading

Provision of S26-certified supervisors for site compliance and oversight

Deployment of qualified and experienced operators across all machinery

CORE
CIVIL MINING

KEY PROJECTS

Client: Fortescue

Location: Cloudbreak Aerodrome

Delivery Role: Principal contractor

Project: Cloudbreak Aerodrome – Fenceline and Drainage Works

Scope of Works:

Clearing and removal of debris from the existing drain

Reshaping and grading of the existing drainage system

Excavation and construction of new drainage sections where required

Trimming and shaping of batters to ensure effective water flow

Installation of geofabric along the drain base, batters, and fenceline

Supply and placement of approximately 800 tonnes of filter rock in accordance with project specifications

Accurate placement to ensure proper drainage performance and structural stability

Final trimming, site clean-up, and detailed inspection

EQUIPMENT CAPABILITY

Core Civil Mining provides reliable plant and equipment support

Earthmoving Equipment :

- Excavators (IT-60T)
- Dozers (D6-D11)
- Graders (GPS-enabled for precision works)
- Loaders (WA320- WA988)

Haulage & Transport:

- Articulated Dump Trucks (ADTs)
- Rigid Dump Trucks
- Tipper Trucks (6 & 8 wheelers)
- Watercarts (dust suppression & compaction support)

Compaction Equipment:

- Rollers (Smooth Drum)
- Padfoot Rollers
- Multi-tyre/Pneumatic Rollers

Support & Utility Equipment:

- Skid Steers (all sizes)
- Backhoe Loaders
- Telehandlers
- Service Trucks (fuel/lube/maintenance)

Survey & Technology

- GPS Machine Control Systems
- Survey Equipment (Total Stations, Drones)

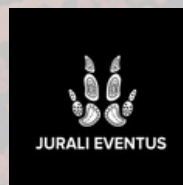

CORE
CIVIL MINING

INDIGENOUS PARTNERSHIP

CORE
CIVIL MINING

Core Civil Mining Services x Jurali Eventus Pty Ltd

Core Civil Mining Services is proud to partner with Jurali Eventus Pty Ltd as our Indigenous capability partner.

As an Indigenous-owned business representing the Nyiyaparli and Banjima Traditional Owner groups, Jurali Eventus and Core Civil bring extensive expertise across civil, transport, and mining services, with a shared commitment to creating meaningful opportunities for Indigenous communities.

Our Commitment

This partnership is built on genuine Indigenous participation. Together, we deliver:

- Skilled Indigenous workforce, including operators and management
- Engagement of Indigenous subcontractors and suppliers
- Support in achieving Indigenous participation and procurement targets
- Cultural advisory to ensure respectful and compliant delivery

Creating Lasting Impact

We are committed to delivering long-term outcomes through:

- Sustainable Indigenous employment and training
- Career development pathways
- Support for Traditional Owner communities and businesses
- Alignment with client Indigenous engagement frameworks

Capability & Delivery

With proven experience delivering to Tier 1 mining and infrastructure standards, we provide safe, efficient, and high-quality project outcomes.

Together, we are building a partnership that goes beyond compliance, creating genuine impact while delivering exceptional results.

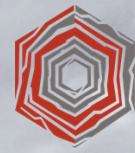

YOUR PROJECT, YOUR LOCATION, OUR EXPERTISE

Core Civil Mine Services provides civil works, bulk earthworks, and infrastructure solutions throughout Western Australia, including the Pilbara region.

Our mobile fleet and experienced workforce enable us to respond quickly to project requirements across both urban and remote locations. Wherever your project is based, we are equipped to deliver with reliability and attention to detail.
